

Journal of Arts Entrepreneurship Research

ISSN - 12341234

The *Journal of Arts Entrepreneurship Research* (JAER) is an academic research journal dedicated to advancing Arts Entrepreneurship research and pedagogy. As this field emerges into a higher education context, the need for a deep intellectual examination of the field and its teaching is acute. JAER provides a platform for established scholars and emerging educators to both examine and help build the scholarly and pedagogical aspects of the field.

JAER is published on a rolling basis and is particularly interested in interdisciplinary submissions addressing the actions of arts entrepreneurs. The *Journal* is free and open access.
